

Cosmetology Program: 1600hrs

In this program, we provide a well-rounded education in an engaging environment for students who wish to embark on a career as a cosmetologist or in related fields. The program will teach and enhance the cosmetologist's broad range of skills and techniques needed to pass the licensing examination and meet clients' demands. The program allows students to accumulate the required hours of technical instructions and the amount of practical operations while learning and improving their techniques and skills before they are allowed to take the licensing examinations.

Skills and knowledge to be acquired:

- * proper use of implements relative to all cosmetology services
- * ability to analyze the scalp, face and hands prior to all services to determine any disorders
- * procedures and terminology used in performing all cosmetology services
- * application of daytime and evening make-up, including the application of individual and strip eyelashes
- * proper procedure of manicuring including water and oil manicure and pedicure
- * the application of brush-on nails, nail wraps, and nail tips
